

EasyFit Python

(Patents Pending)

LIFE JUST GOT EASIER!

LOW FRICTION FINISH - EasyFit python pulls through ducts more easily – out-performs taped pythons on the market

REDUCES MANUAL HANDLING ISSUES AND EASES INSTALLATION - 77% less force required for installing 2 pythons in a duct

GREATER FLEXIBILITY - EasyFit python goes round tighter radius corners and bends with less catching

TEAR RESISTANT - Outer jacket is not easily damaged – greatly superior to taped products

RECOVERS FROM COMPRESSION during transit and storage. Also recovers its shape when pulled through ducts, giving better performance in the field

INCREASED EFFECTIVENESS - EasyFit's low contact surface reduces sweating where two pythons are installed side by side

REDUCED WRINKLING - attractive outer finish raises standard in bar

**EasyFit is now being installed worldwide. Every customer using EasyFit has noticed the difference
Try EasyFit and enjoy the benefits!**
